

Primero descargas el siguiente tema, para tener una fundación:

Name: Legendary Dark

VS Marketplace Link:

<https://marketplace.visualstudio.com/items?itemName=LlewellynPaintsil.legendary-dark>

Ahora abres el .json file, lo puedes encontrar entrando a Settings y en la esquina arriba a la derecha vas a ver un icono de file.

Get Started

Settings

settings.json

C:\Users\jeanp\AppData\Roaming\Code\User\settings.json

```
1 {
2   "security.workspace.trust.untrustedFiles": "open",
3   "explorer.confirmDragAndDrop": false,
4   "arduino.path": "\\arduino.path\\":\\"C:\\\\Users\\jeanp\\Arduino\\",
5   "arduino.commandPath": "run-arduino.bat",
6   "arduino.useArduinoCli": true,
7   "workbench.productIconTheme": "fluent-icons",
8   "terminal.integrated.gpuAcceleration": "off",
9   "workbench.iconTheme": "material-icon-theme",
10  "git.autofetch": true,
11  "terminal.integrated.fontFamily": "monospace",
12  "editor.smoothScrolling": true,
13  "workbench.list.smoothScrolling": true,
14  "editor.fontLigatures": false,
15  "editor.fontSize": 15,
16  "[python]": {
17  },
18  "python.terminal.executeInFileDir": true,
19  "window.zoomLevel": -2,
20  "editor.accessibilitySupport": "on",
21  "todomd.sortProjectsView": "alphabetic",
22  "workbench.colorCustomizations": {
23  },
24
25  "editor.tokenColorCustomizations": {
26    "textMateRules": [
27      {
28        "scope": "source.python",
29        "settings": {
30          "foreground": "#00e5ff",
31          // "fontStyle":
32        }
33      },
34
35      {
36        "scope": "entity.name.function",
37        "settings": {
38          "foreground": "#ff00bb",
39          // "fontStyle":
40        }
41      },
42
43      {
44        "scope": "meta.function-call.generic.python",
45        "settings": {
46          "foreground": "#ff00bb",
47          // "fontStyle":
48      }
```

Entonces al final del código que ya esté en el file, pegas el siguiente código:

```
"editor.tokenColorCustomizations": {
  "textMateRules": [
    {
      "scope": "source.python",
      "settings": {
        "foreground": "#00e5ff",
        // "fontStyle":
      }
    },
    {
      "scope": " entity.name.function",
      "settings": {
        "foreground": "#ff00bb",
        // "fontStyle":
      }
    },
    {
      "scope": "meta.function-call.generic.python",
      "settings": {
        "foreground": "#ff00bb",
        // "fontStyle":
      }
    },
    {
      "scope": "support.function",
      "settings": {
        "foreground": "#c713d1",
        // "fontStyle":
      }
    },
    {
      "scope": "storage.type",
      "settings": {
        // "foreground":
        "fontStyle": "italic bold"
      }
    }
  ]
}
```

```

    },

    {
      "scope": "constant.numeric",
      "settings": {
        "foreground": "#3ad947",
        "fontStyle": ""
      }
    },

    {
      "scope": "entity.name.function",
      "settings": {
        "foreground": "#ff00bb",
        // "fontStyle":
      }
    },

    {
      "scope": "variable.parameter",
      "settings": {
        "foreground": "#00e5ff",
        "fontStyle": "italic bold"
      }
    },

    {
      "scope": "constant.language",
      "settings": {
        "foreground": "#542eff",
        // "fontStyle":
      }
    },

  ]

},
"workbench.colorTheme": "Legendary Dark",
"editor.guides.bracketPairs": true,
}

```
